\* Nominal values within a range. Consult photometry data for exact color temp, lumens & distribution.

† Not all wiring types are available with all configurations. Consult Philips Ledalite for a complete list of available options.

### Upgrades & Accessories Please indicate with check mark.

- Flex Whip (6' length)
- Solid Filler Panel (set of 2)
- Perforated Filler Panel/Air Return (set of 2)

### Integrated Controls Please indicate with check mark.

- Response Daylight Sensor Single Zone (DS)
- Philips Actilume Occupancy Sensor (DO) (includes field commissionable daylight sensor)

# Shine LED

20"x4', 6800 lm

3000K

## Weight

Maximum 40lbs

## Optical System

Optical system consists of highly reflective painted interior reflectors and three flat acrylic lenses.

## Standard Driver

Dimming: 0-10V (1-100%). Output is Class 2 rated. Consult factory for a list of other options.

## Electrical

LED boards are easily field replaceable, if required. Fixtures are factory pre-wired and tested for all circuits and emergency battery packs; all leads pulled to a side access with cover plate. Optional armored cable flex whips are supplied in 6' lengths.

## Lumen Maintenance

Lumen maintenance of the LEDs has been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation is L80(12K)>72,000h according to IES TM-21-11 Addendum A Reported methodology.

## Housing

Die-formed, post-painted, 22 gauge cold-rolled steel. Wire entrance is positioned on top and the sides of housing to allow easy wiring access for installation. Access to boards and drivers from below via side lens cavity. T-bar clips built into the luminaire ends for quick and easy installation. Optional perforated or solid filler panels for 20"x48" fixtures to accommodate 60" ceiling grid.

## Finish

Housing and Frame: Post-painted, high quality powder coat. Available in white.

## Warranty

Five-year luminaire limited warranty including LED boards and driver.

USA: <http://www.usa.lighting.philips.com/support/support/warranty>

Canada: <http://www.lighting.philips.ca/support/support/warranty>

## Environment

Rated for dry & damp locations in operating in ambient temperatures of 25°C.

## Approvals

Certified to UL & CSA Standards. City of Chicago Approved CCEA (housing option C).

## General Notes

Many luminaire components, such as reflectors, refractors, lenses, sockets, lamp holders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum based solution or other contaminants are not covered under warranty.

## Mounting

Compatible with 15/16" lay-in acoustical ceilings using exposed grid suspension (NEMA type G). For 9/16" slot T-grid ceilings, fixture will sit 5/16" above bottom of Tee. Integrated tabs are provided for different T-grid heights.

Due to continuing product improvements, Philips Ledalite reserves the right to change the specifications without notice.

## Options and Details

### Mounting

### Ceiling types

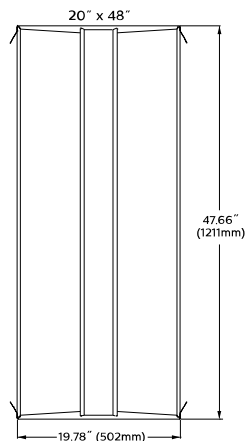

Integrated mounting tabs can be field-adjusted to various T-Grid ceiling heights for fastening directly to the T-Bar and/or tied off to the building structure.

## Photometry

Total Output	6531 lm
Efficacy	109.6 lm/W
CCT	2995K
CRI	81
Distribution	0% Up / 100% Down
Spacing Criteria (0/90°)	1.17/1.16

Fixture photometry has been conducted in accordance with IESNA LM-79-08

IES files for this and other photometric options can be downloaded online at [www.lightingproducts.philips.com](http://www.lightingproducts.philips.com)
