* Nominal values within a range. Consult photometry data for exact color temp, lumens & distribution.

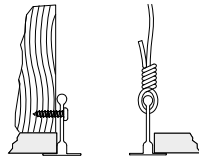

† Not all wiring types are available with all configurations. Consult Philips Ledalite for a complete list of available options.

Upgrades & Accessories Please indicate with check mark.

- Drywall Kit Trim Mount
- Flex Whip (6' length)

Can be mounted to wood frame or with hanger wire

Integrated Controls Please indicate with check mark.

- Response Daylight Sensor Single Zone (DS)
- Philips Actilume Occupancy Sensor (DO) (includes field commissionable daylight sensor)
- SpaceWise DT Occupancy & Daylight Sensor (SZ)

SilkSpace

2'x2', 1700 lm

3500K

Housing

Sides and center spine: precision aluminum extrusion; end caps, back housing and driver cover: die-formed, 20 gauge cold-rolled steel, pre and post painted. Available in white. Multiple wire entrances are available (top or side) to allow continuous row mounting of fixtures.

Electrical

Factory pre-wired with driver safety disconnects. Dimming enabled as standard: 0-10V (1-100%). Philips Advance Xitanium Sensor Ready (SR), 5-100% (for SpaceWise). Output is Class 2 rated. Consult factory for a list of other options. LED boards and drivers are easily field replaceable, if required.

Lumen Maintenance

Lumen maintenance of the LEDs has been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation is L80(12K)>72,000h according to IES TM-21-11 Addendum A Reported methodology.

Controls

Available with the following integrated controls:
Response daylight sensor (for single zone).
Philips Actilume occupancy sensor (includes field commissionable daylight).
SpaceWise DT occupancy & daylight sensor w/ advanced grouping & dwell time.
SpaceWise DT commissioning via Android phone and Philips Field App. Compatible dimming wireless wall switches are available. For more information, please refer to www.philips.com/spacewise

Weight

Maximum 28lbs (2x4); 21lbs (1x4); 15lbs (2x2).

Mounting

Fixtures are factory pre-wired and tested for all circuits and emergency battery packs. Compatible with 15/16" lay-in acoustical ceilings using exposed grid suspension (NEMA type G). For 9/16" slot T-grid ceilings, fixture will sit 5/16" above bottom of Tee. Optional armored cable flex whips are supplied in 6' lengths.

Warranty

Five-year luminaire limited warranty including LED boards and driver.

USA: <http://www.usa.lighting.philips.com/support/support/warranty>

Canada: <http://www.lighting.philips.ca/support/support/warranty>

Certifications

SilkSpace luminaires are DesignLights Consortium® qualified. Please see the DLC QPL list for exact catalog numbers (<http://www.designlights.org/QPL>)

Environment

Rated for dry & damp locations in operating in ambient temperatures of 25°C.

General Notes

Many luminaire components, such as reflectors, refractors, lenses, sockets, lamp holders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum based solution or other contaminants are not covered under warranty.

Optical System

The optical system is comprised of arrays of LEDs edge-lighting a low profile light guide panel. The microstructured surface of the light guide panel optimizes the light extraction creating a homogenously luminous appearance. Light is then controlled by MesoOptics film suppressing the high-angle light creating an ultra low-glare bat-wing distribution.

Approvals

Certified to UL, CSA & IES Standards. City of Chicago Approved CCEA (housing option C).

Due to continuing product improvements, Philips Ledalite reserves the right to change the specifications without notice.

Options and Details

Mounting

Integrates with most common T-Grid ceiling types

Flat T-Grid

Works with 9/16" & 15/16" flat T-Grid ceilings

Slot T-Grid

Can also be used with slot T-Grid ceilings. For 9/16" slot T-grid ceilings, fixture will sit 5/16" above bottom of T-Bar.

Photometry

Total Output	1810 lm
Efficacy	108.4 lm/W
CCT	3380K
CRI	82
Distribution	0% Up / 100% Down
Spacing Criteria (0/90°)	1.37/1.65
UGR	16.0
Meets RP-1-12 recommendations for VDT-Normal spaces	

UGR values measured at 4Hx8H, 0.25H

Fixture photometry has been conducted in accordance with IESNA LM-79-08

IES files for this and other photometric options can be downloaded online at www.lightingproducts.philips.com
